To whom it may concern:

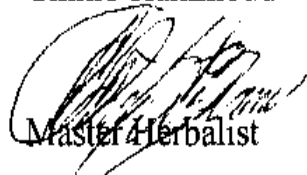

This is to certify that as a master herbalist, nutritionist and natural pharmacist with 24 years of experience in herbology and nutrition, formulating and creating formulae; testing herbs, vitamins and minerals; I do believe that the formula: InnerClarity is a great way to expel an extremely high level of toxins out of the body. Also it is a great way to cleanse the body from head to toe.

Also I here certify that the formula InnerPurity is a great formula to eliminate the worst kinds of parasites and worms from the human body. In fact, since 1979 we have been treating thousands and thousands of patients by the natural components and the herbs that are in the InnerPurity formula. We have had patients that expelled worms that were about 12" to 18" long and they were extremely sick because of the parasites. And now they live a wonderful healthy life.

In fact, all the natural components and herbs in the InnerPurity formula and the InnerClarity formula have been used for centuries and centuries. They have proved to be extremely beneficial in the cleansing of toxins and parasites out of our bodies. In addition, that has been since the Roman Empire, the Chinese Empire the Egyptian Empire, the Greek Empire the Mediterranean cultures, and the old Turkish Empire.

I do stand one hundred per cent behind the effectiveness of InnerPurity and InnerClarity and do certify as a professional in this field that the two formulae will cleanse the body from parasites and toxins.
